

# Two-part clamping ring

for use with flanged sealing ring for connecting pipes with wall thicknesses of 1,2 and 3mm

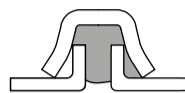

## Material

1.0038 electrically galvanized  
1.4301 stainless steel

## Profile

## Seal

Flanged sealing ring,  
leakage-free  
see p.26–31

DN nominal width	Inner diameter A	Screw DIN912	Material thickness	Weight
80	86	M8 x 60	1,5	0,247
90	96	M8 x 60	1,5	0,254
100	106	M8 x 60	1,75	0,306
112	118	M8 x 60	1,75	0,320
120	126	M8 x 60	1,75	0,329

630	636	M8 x 60	1,75	0,924

### Versions in

steel 1.0038,  
electrically galvanized

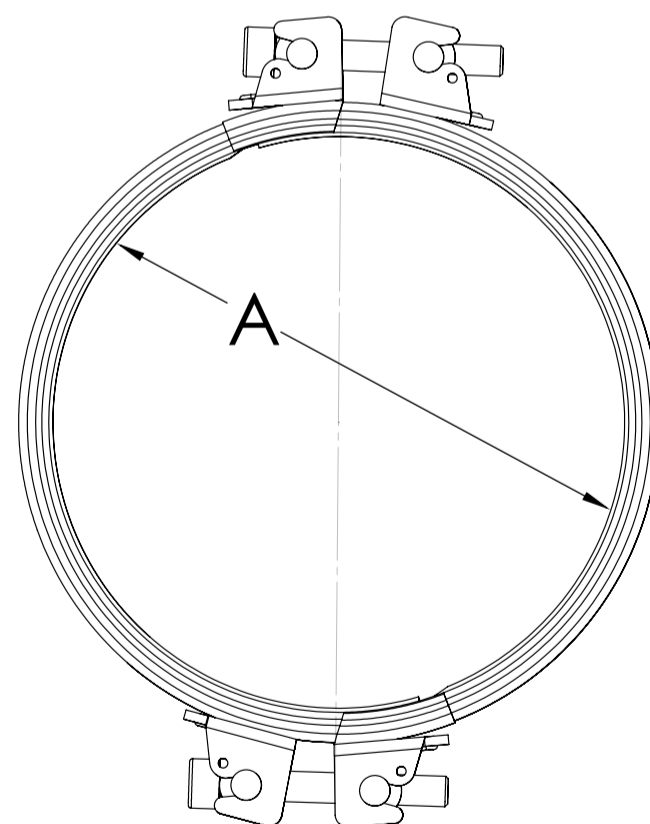

stainless steel 1.4301

**i** The two-part ESKATE clamping ring is regarded as an all-rounder and is the best-selling clamping ring. It can be used everywhere and is considered to be especially easy to assemble due to its special articulated latch technology even in places that are very inaccessible.

Thanks to its special yellow-galvanized lug, this clamping ring can be opened and closed quickly and easily without it being possible for the screw to get lost during assembly.

**i** Very short lead times due to all year round availability from stock. Custom and non-standard factory sizes available on request

*Minimum order value: Net goods value of 40.00 euros. The prices do not include VAT, packaging and forwarding. All dimensions in mm. All weights in kg. Subject to errors and alterations.*

Explosion shock-proof up to 3 bar
